## Your child's gender:

25 responses

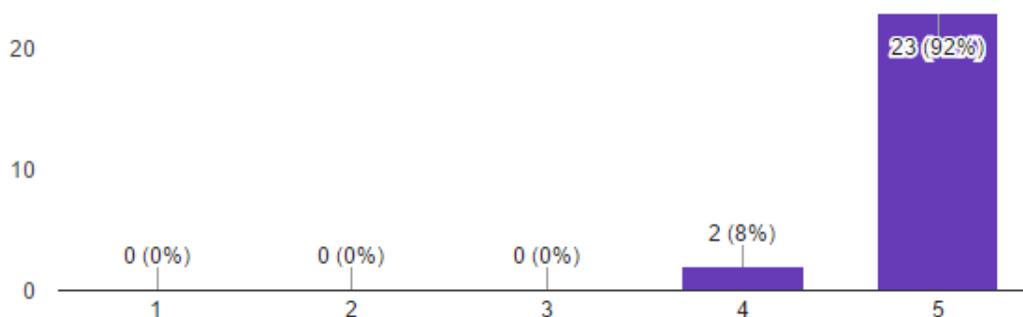

Overall, on a scale of 1 to 5 (1 being the lowest and 5 being the highest), how would you rate Mr. Miller's performance as your child's teacher?

25 responses

On a scale of 1 to 5 (1=lowest, 5=highest) how well do you feel that Mr. Miller challenged your child in 4th grade science this year?

25 responses

## Based on your experiences this year, what do you consider to be Mr. Miller's strengths?<sup>25 responses</sup>

### Testing

Communication and patients My son has truly loved being in this class. I'm so proud of the grades he's gotten also. He comes home and tells me what he learns and he understands perfectly. This is only because of a patient and creative teacher.

Mr. Miller seems to genuinely care about my son; he challenges my son; keeps my son interested in the coursework through interesting assignments and classroom projects. Mr. Miller also provides excellent, comprehensive class updates via email and his Weebly page.

Excellent use of technology in terms of supports for students and teachers.

positive attitude and approach to Science learning with experiments. love the daily updates and review quizzes for tests

Mr. Miller quickly became my daughters favorite teacher. He has done a wonderful job of teaching the children while also nurturing them. He connects with kids the way no teacher I have seen before.

To connect with my child and she enjoys science.

My child loved your class this year!

Doing many different experiments with classes

Make the class very interesting, so students are willing to learn

How he cares for his students and his willing to go beyond his job responsibilities for the children. His classroom instruction making Science a favorite for the students.

His teaching strategies

Mr Miller, Is the best Teacher we ever had. He love what he does and care so much for is kids.

Being able to connect with students

Getting along with students. Understanding the strength of the students and work on it with them. Being patient with students Knowledgeable and make students understand better by showing experiments

Mr Miller is great with his students. He is funny yet keeps them focused. He knows ho to challenge them and keep them interested in assignments by making everything fun and engaging. He is also extremely organized and goes above and beyond to communicate effectively with parents. Most importantly though I think his biggest strength is how much he cares for his students and wants them to succeed. I give Mr. Miller an A+++++ and will miss him being Ryan's teacher.

He is so passionate about his students and their learning! We are grateful to have had him teach our son.

Communication and making learning exciting for the kids.

Mr. Miller is excellent at communicating status updates with all of his parents. My child was not in Mr. Miller's homeroom class, however I felt equally as informed on the activities within his classroom. At times, I learned of school events through his emails well before the weekly PPES announcement emails.

Mr. Miller's great with class participation to make learning science fun. He is also great with communicating with the parents.

communication, making learning fun and interesting

Highly responsive, knowledgeable and experience

Being a kind, caring, concerned and awesome teacher.

Very details and well done

His excitement and aptitude for science and the experiments. He gets the kids fully engaged and genuinely cares about them not only grasping the information but excelling with it.

## Based on your experiences this year, where do you feel that Mr. Miller needs to improve in order to be the most effective teacher that he can be?<sup>25 responses</sup>

None

None

Testing

N/A

n/a. Mr. Miller is an outstanding teacher.

Everything seems to be going well with what you are doing in class with the students and in regards to providing support with the parents.

I found it difficult to keep up with the SS assignments, so maybe some more guidance for kids so they knew what they were supposed to do. Put it on the kids and provide examples of expectations for assignments.

Keep up the good work.

Can't think of anything.

Shorter emails 😊

n/a

I don't have any recommendations. He has been a great Teacher!

Can't think of one

I have no complaints

Nothing

The questions/test given should be available later for students to practice from the teacher's website. This way the students can go back and revise the test. The teacher should also add new questions to the previous test so the question bank increases and can be used again for the next batch.

N/A

Nothing - we love him!

I think Mr Miller is the best teach Kennedi has ever had! He understands each child and seems to have a passion for teaching.

If there is a way to do more hands-on projects, then I would love to see more. My child loved the experiments in the classroom. He liked not just the hands-on activity but also the ability to learn from the outcomes of the various experiments and what tweaks he would have to make for a different outcome.

I really don't have anything other than my child said he sometimes goes off topic but even then they're still learning.

I honestly can't think of any improvements

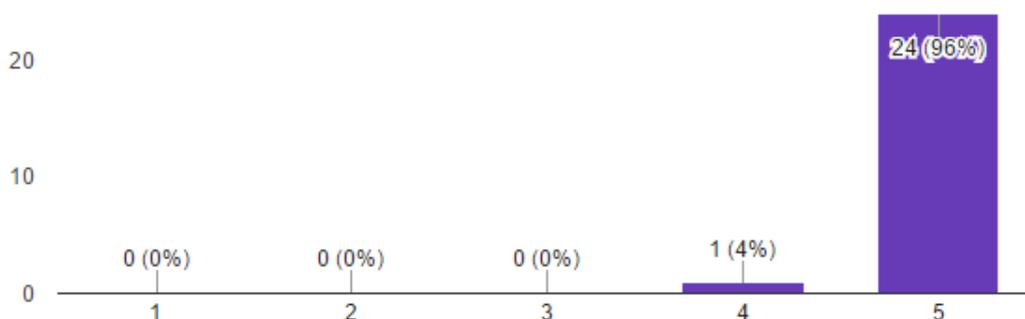

NA

Let us know Megan has trouble In school

I don't see any improvements to be made as a teacher.

On a scale of 1 to 5 (1=lowest, 5=highest) how satisfied are you with Mr. Miller as your child's teacher this year?

25 responses

Any other feedback for Mr. Miller? This is not a required question but it sure would be nice. 20 responses

Testing

Keep doing what your doing! :). It works!

Mr. Miller is my son's favorite teacher and Science is his favorite subject.

Child learned a lot about science objectives this year. really feel it will help on the test for next year.

OUTSTANDING!!!!!!

Thank you so much for helping Megan this year, she loves the Science class, and thanks for let us know her progress in the class.

My child loves his class and his experiments. She has often come home talking about her Science class and how interesting it is.

Thank you for all you do.

Mr Miller is awesome

I have already given my feedback to the principal. The students get along and they have to go to a new teacher the next year. I would like if Mr. Miller can teach these kids for 5th grade so they have good connection with the teacher instead of restarting the relationship. Once this batch moves to 6th grade Mr. Miller can move back to 4th grade that way each science teacher gets the students for 2 years instead of one. Please, please think about it and request it to the principal.

I have been so very grateful to have had both of my boys have Mr. Miller be a part of their education at Palisades Park. He has been nothing but a positive influence on both of them. I will always be grateful to him.

In general, if there was a way to make ONE weebly or website for all teachers to use for us parents to link to for daily assignments, quizzes, etc. it sure would be nice. I realize this is not a task that is particular to Mr Miller, but in general, it would help out us parents!

I can't think of anything negative. He is simply an awesome teacher and the kids love him. They also have fun learning which is awesome!

Keep up the good work!

Thank you for all of the great communication and having such a fun science class. Keep up the great work!!

You have been an amazing teacher. Thank you so much for always communicating with parents and keeping us in the loop as to what is going on. I love the online study guide and practice test.

NA

Thank you for being the best teacher for K.S. :-) She truly enjoyed being in your class and will miss you being her teacher but will be so happy to see you anyways.

Thank you for the hard work

Even though your scale only goes to a 5, I'd still put you as a 10. This has been such an enjoyable year for my son (Zach). He is REALLY going to miss seeing you every day. The only "constructive" feedback I have is that while I am so impressed with the amount of info and recap that you send to parents, I have a hard time reading it all because it is lengthy. For me, bullet points are easier because I'm receiving emails from several teachers for several children and can't get through them all. Even that is really hard for me to say to you because I can see all of the time and effort you put into them. I just think you're wonderful. Thank you!
